ASSISTANCE FOR NEW TEACHERS

In order to help beginning teachers polish their skills, improve their chances for success, and encourage them to stay in the profession, KNOX COUNTY R-1 has established a mentoring program for every teacher during his or her first two years of teaching.

1. Principals are responsible for identifying and asking teachers to serve as mentors. Any teacher who has two years experience and is willing to be trained may be considered as a mentor.
2. The PDC and the principal should be alert at all times for any personality differences or disagreements that might necessitate assignment of a new mentor.
3. Results of the needs assessment will be analyzed to determine the procedures that will be of most benefit to assist teachers with their first two years of teaching experiences.
4. The mentor will work with the new teacher to help develop an Individual Professional Development Plan. New teachers in conjunction with their mentor shall make adjustments so the plan best fits the teacher's needs.
5. Members of the PDC and all mentors need to attend a mentor training workshop provided by RPDC.
6. The mentor must meet with his/her protégé each month and monitor the items in the Mentor/Protégé Plan.
7. The protégé will be provided time to observe master teachers.
8. The mentor will assist the new teacher in completing the Professional Development Log.

GUIDELINES FOR MENTOR TEACHER SELECTION AND TRAINING

Any teacher who has two years experience and is willing to be trained may volunteer to serve as a mentor. Ideally a mentor should be teaching in the same grade level, or the same area of certification, as the beginning teacher. The principal is responsible for identifying and asking teachers to serve as mentors. Mentors should be identified in sufficient time to allow for training. Also, mentors should receive their assignments with adequate time to help beginning teachers prepare their initial professional development plans.

The mentor should be trained in the following areas:

1. The roles and responsibilities of the new teachers professional development team; the new teacher, the mentor teacher, and the principal/supervisor
2. Coaching and counseling techniques.
3. The format and content of the PD plan
4. Teacher evaluations including content, process, standards, and criteria
5. Listening and inquiry skills
6. Resources (people and publications) available to beginning teachers at the district, higher education, regional and state levels
7. Peer coaching
8. Current theories and models of instruction and classroom management.
9. Analyzing student work to inform instruction.

The mentor teacher has been described as a “coach, trainer, positive role model, developer of talent, [and] opener of doors. The mentor teacher is a “helper” not an “evaluator”. Discussions between the mentor and protégé should remain confidential. The district should be sure the mentor has opportunities to meet with and counsel the beginning teacher as needed.

RULES AND RESPONSIBILITIES OF THE NEW TEACHER

IPC Requirements:

The INITIAL PROFESSIONAL CERTIFICATE is valid for four years and assigned to new graduates of teacher education programs and individuals with less than four years of teaching experience who meet the minimum requirements and qualifications. To advance to the next level during the valid dates of the classification, a teacher must meet the following requirements:

- Participation in a district-provided and approved mentoring program for two years;
- Successful completion of 30 contact hours of professional development which may include college credits;
- Participation in a Beginning Teacher Assistance Program;
- Successfully participate in a performance-based teacher evaluation;
- Complete four years of approved teaching experience;
- Have a local professional development plan.

New teachers need to keep open communication with their mentor by seeking support and assistance when needed by asking questions. New teachers are given time to observe their mentor teach. Some mentors and protégés have a common planning time. Substitutes can be hired by the hour or by the day. PDC will pay for substitutes.

CCPC Requirements:

The CAREER CONTINUOUS PROFESSIONAL CERTIFICATE is valid continuously depending on an individual meeting the following:

- The requirements at the IPC level (four years of experience);
- Successful, yearly completion of 15 contact hours of professional development which may include college credits;
- Have a local professional development plan

OR

Two of the three following items:

- Ten (10) years of teaching experience;
- A master’s degree;
- National Board Certification

RULES AND RESPONSIBILITIES FOR MENTORS

1. The mentor will help the beginning teacher develop an Individual Professional Development Plan.
2. The mentor will provide curriculum guides, the location of the Professional Development Library and other resources to the new teacher.

3. The mentor and protégé must meet each month and check off the items in the Mentor/Protégé Plan and turn into the PDC.
4. The mentor will maintain confidentiality at all times and reinforces trust.
5. The mentor will help the new teacher understand and apply policies, rules and cultural norms.
6. Mentors will observe and provide feedback to the new teacher.
7. Mentors will help the new teacher complete the Professional Development log and turn into the Superintendent's office in May.

RESPONSIBILITIES OF ADMINISTRATORS

The administrator plays a vital role in implementation of a mentoring program.

Administrators need to be aware of such issues as:

1. Ethical responsibilities, including the need for confidentiality.
2. Effective assessment methods for determining learning needs of practicing teachers and how to use assessment information to establish priorities.
3. Finding good resources (people and materials) for professional development.
4. Maintaining the role of instructional leader while working cooperatively with the PDC.
5. Supporting teachers by setting aside time for learning.

Administrator's' responsibilities include the following:

- Provide time for teachers to observe
- Define mentor's roles
- Monitor new teacher and answer questions
- Provide support of mentoring program
- Select and assign qualified mentor when new teacher is hired
- Offer support, assistance and resources to mentor and new teacher

INDIVIDUAL PROFESSIONAL DEVELOPMENT PLAN

The purpose of a professional development plan is to assist, not to evaluate, the beginning teacher. The goals identified in the plan should relate, in part, to the district's evaluation criteria. The plan also may reflect educational research on effective teaching.

The beginning teacher's mentor should initiate preparation of the individual professional development plan. A professional development team or triad consisting of the principal, the mentor and the beginning teacher will be formed to help the beginning teacher. Subsequent planning between the mentor, the building principal, and the beginning teacher should occur. The plan may include goals in the areas such as classroom management, understanding district policies, effective parent communication and the use of curriculum guides, equipment, and materials. The plan must respond to individual needs and take into account the fourth-year college assessment, if provided. The Building Principal will keep copies of the initial plan and revisions on file.

Mentoring

District mentoring guidelines are as follows:

- I. The mentor will introduce and help to integrate the mentee into the culture of the school, the district, and the community by:**
 1. Instructing the mentee on the District's policies, procedures, CSIP, and goals.
 2. Communicating the social environment of the surrounding community.
 3. Familiarizing the mentee with local, district, and national organizations that are active within the school environment.
 4. Discussing any classroom issue the mentee may have; such as how the school handles race, gender, or disability issues.
 5. Providing ongoing assistance with data analysis, assessments procedures/practices.
 6. Discussing any district initiatives or parental concerns the mentee would find helpful to know about.
 7. If necessary, explaining district acronyms.

- II. The mentoring program will provide a systematic and ongoing program review/evaluation by all stakeholders:**
 1. The program will identify all stakeholders.
 2. The program will identify desired mentoring outcomes, timelines for those outcomes, and how the desired outcomes will be measured.
 3. The program will include a systematic and continuous system for gathering feedback on the mentoring program from mentors, mentees and administrators. (One possible method of gathering data would be through pre and post surveys of mentors and mentees, etc.).
 4. The program will be based on a foundation of best teaching and student learning practices.
 5. The program will require independent/anonymous exit interviews, so clear reasons for staff departure can be determined.
 6. The program will be supported by central office and school board trend data.
 7. The program will be included in broader Professional Development program evaluations.

- III. The mentoring program will include an individualized plan for beginning educators that aligns with the district's goals and needs and:**
 1. The individualized plan will be aligned with the District's Teacher/Educator Evaluation standards.
 2. The individualized plan will be a systematic and concise mentoring and professional development plan that prioritizes the immediate and future needs of the new educator.
 3. The individualized plan will align with all the district's CSIP and certification requirements.
 4. The individualized plan will establish outcomes for new educators.

5. The individualized plan will be an extension or part of a professional development plan that may have begun during student teaching/internship or culminating project in college.
6. The individualized plan will establish classroom or on the job observations that are guided by and contain a checklist of best practices observed by the mentor.
7. The individualized plan will encourage structured experiences and expectations for all new educators.

IV. The mentoring program will have appropriate criteria for selecting the mentors that will operate within the program:

1. The mentor will have a minimum of three years of teaching experience.
2. The mentor will be committed to optimizing student learning.
3. The mentor will show enthusiasm and a commitment to the education profession.
4. The mentor will have a commitment to self-growth and a commitment to the growth of any future mentee.
5. The mentor will hold the same or similar position in respects to the grade and subject area of the mentee.
6. The mentor/mentee will have the ability to use mechanisms that will be in place to end the pairing if either the mentor or mentee is not satisfied.
7. The mentor will have an understanding of both broad educational issues and specific teaching/learning issues.
8. The mentor will have a strong understanding of pedagogy, instructional expertise and relevant administrative issues.
9. The mentor will be made available, through release time or some other mechanisms, to mentor their assigned mentee.
10. The mentor will be assigned by the building principals with input from the grade level or department level chairperson.
11. The mentor shall be supported in time and effort by the administration and the school board.

V. The mentor program will provide comprehensive mentor training to all mentors:

1. The mentor training program will teach the prospective mentors that the mentoring process is not an evaluation and that confidentiality is required between mentor and mentee (unless it is a situation involving child endangerment).
2. The mentor training program will include cognitive coaching and collaborative training skills.
3. The mentor training program will include observation and feedback on the training and skills of the mentors.
4. The mentor training program will provide the mentors with an awareness of the phases of first-year educators (stress, depression, etc.).
5. The mentor training program will provide mentors with a catalogue of the resources that are available to beginning educators.
6. The mentor training program will teach mentors the need to recognize the need for knowledge and strategies in regards to classroom management.
7. The mentor training program will provide for formation of mentoring consortia.

8. The mentor training program will teach mentors to focus on exemplary teaching and assessment practices.
9. The mentor training program will teach mentors to build working strategies that encourage problem solving and independent thinking.
10. The mentor training program will teach mentors the importance of student assessments and how these assessments may be utilized to guide future classroom instruction.
11. The mentor training program will instruct the mentors on the importance of including a self-assessment that identifies whether mentoring is meeting both the mentor's and the mentee's expectations.
12. The mentor training program will stress the importance of student learning.

VI. During the mentoring program mentors will be given sufficient time to observe the beginning educators and for the beginning educators to observe master educators. The times of the observations should be structured in a way that limits that amount of time a substitute teacher is required while still allowing multiple opportunities for the observations. These results may be achieved by:

1. Aligning class schedules and planning periods in a way that allows for the completion of mentoring duties.
2. Utilizing state and local professional development funds or stipends to support the mentor's additional duties.
3. Providing release time for at least three observations and meetings between the mentor and the mentee.
4. Encouraging colleges to support mentors and mentees, using online classes, having personal visits and/or using a beginning educators' assistance program.

Mentor Assignments/Program Delivery

Mentors will be allowed a sufficient amount of time to observe the teaching of the mentee. These observations should be accomplished via release time and schedule coordination. Additionally, when executing the mentoring program the following elements should be met:

1. That every new educator participates in a mentoring program approved and provided by the district for a minimum of two years.
2. That the program should provide the new educator with an introduction to District students, community, district, school, and classroom in a way that is systematic, ongoing and individualized.
3. The program will have classrooms visits with pre and post conferences and allow time for mentor/mentee activities and meetings.

Program Accountability

All mentor programs will have systematic and ongoing program review and evaluation by all stakeholders that identifies mentoring outcomes and their measurements, gathers feedback from stakeholders, and includes anonymous exit interviews.

Professional Activities, Training and Professional Grants

Mentoring

The District's mentoring goal is to facilitate the growth and development of new educators by pairing them with experienced veteran educators. Through the effort of both the mentor and the mentee, the mentee shall draw upon the experience and knowledge of the veteran mentor to enhance their own professional skills and enhance student learning. It is vital to the success of our students that new educators become integrated, through the mentoring program, into the school's culture and are given the opportunity to better themselves with the assistance of one of their veteran peers.

Through the mentoring program the Board hopes to not only create a stronger learning community but also a community where the strong professional and personal bonds between the educators in the District provide students and employees the best possible working and learning environment.
