Third Grade	13	20	33	97.58%	
Fourth Grade	9	11	20	97.89%	
Fifth Grade	11	19	30	96.48%	
Total	86	98	184	96.90%	

Knox County Elementary

First Grade Spotlight:

In whole group reading, first grade finished up their Geology unit and wrote a letter to Paleontologist Pam. In writing, students created a restaurant review and turned it in to a pages book to share with their families.

In Science, first grade has been very busy! They finished hatching chicks last week and they're finishing their sound unit by building different instruments and creating a keynote about their instrument. Up next for them is plants. Students are going to plant marigold seeds in donated coffee cups, to deliver to the nursing home.

Fifth Grade Spotlight:

In Writing, the fifth graders are currently finishing up their Blood Drive community project. They have created write ups for the paper, a public service announcement for the radio station, videos for the commons to share with high school students, and coloring contest worksheets for students in grades (K-4).

In Math and Science, the fifth graders generated questions and surveyed, the other elementary classes. They turned the results in to poster, presentations to show a relationship between fractions, decimals, and percentages. In Science, students are learning about the scientific method and are doing some experiments, "Save Fred" and "Drop Height vs. Bounce Height."

Can You Save Fred? Fred, the gummy worm, has been spendin time boating on the Indian River Lagoon. It to bright, he is a worm after all. He has ne learned to swim and he never wears his lif One afternoon a storm came while Fred on his boat. The worst thing happened, Fi without falling into the water and dro you save Fred? Materials: -Gummy worm (Fred) -Gummy life saver (life preserver) -Plastic cup (the boat) -Paper clips Problem: How can you and your partner(s) save Fred using only paper clips? You may NOT touch Fred, the loat, or the life preserver directly with your ands, only with the paper clips.
