INTRODUCTION

PHILOSOPHY

This handbook is intended to provide each support staff employee with the basic policies and practices of the district. Each employee is encouraged to read this handbook thoroughly in order to gain an understanding of employment items in the handbook. Items that are not understood in the handbook by the employee should be discussed with Central Office. Employees will receive specific guidelines from their job descriptions and their supervisors. Job descriptions are available from the central office. All board policies are available for viewing in Central Office.

All staff should become familiar with Board Policy and Regulation manuals of the Board of Education. These manuals are found on the school district website at www.knox.k12.mo.us.

STUDENTS Policy 2812

Student Services

Identification of At-Risk Students

The District is committed to identifying students who are at-risk of not being ready for college level work or not being ready for employment in entry-level career positions. It is essential that such identification occur early enough that our schools can intervene with academic counseling, career counseling, and other intervention services to enhance a student's readiness for post high school academic or employment opportunities.

Identification

Consistent with this District's commitment, at-risk students will be identified by at least their ninth grade year, including students who transfer into the District during ninth grade. In order to identify such at-risk students, District staff will utilize the following criteria:

1. Student performance in Mathematics and English on the eighth grade Missouri Assessment Program (MAP) tests.
2. The District will consider comparable statewide assessment performance for students transferring into ninth grade from outside of Missouri.
3. The District's reported rate of students taking remedial courses in basic academic subjects of English, Mathematics, and Reading during their initial year of college. In assessing this data, the District will rely on data submitted by the Department of Higher Education pursuant to § 173.750 RSMo.
4. The student's attendance rates.

While the above at-risk identifiers are mandatory, the District may consider additional criteria including, but not limited to, review of discipline record; performance more than one grade level below in Reading and/or Math; core subject middle school grades; academic assessment results; contents of Section 504 Plan; ACE score (Adverse Childhood Experience) of 5 or more or other relevant identifiers.

Academic and Career Counseling

When at-risk students are identified, the District will initiate academic and/or career counseling as soon as is practicable to enhance at-risk students' opportunity to graduate on-time, and to enhance their college and/or career readiness.

This policy may be appropriately waived for any student with a disability upon the recommendation of the student's Individualized Education Program (IEP) team.

STAFF CONDUCT(Policy 4121)

All professional and support staff members of the Knox County R-I School District have the responsibility to become familiar with and abide by the federal and state statues as these affect the performance of job duties, the policies of the Board, and the regulations designed to implement them.

Since the realization of district goals is dependent upon the behavior of professional and support staff, the following conduct will be required of all employees.

1. Remain faithful and prompt in attendance at work.
2. Support and enforce the policies of the Board of Education and the regulations for the school administrators.
3. Diligently submit any required reports at the time specified.
4. Care for and protect school property.
5. Attend all regular and special meetings called or authorized by the superintendent or designee.
6. Maintain concern for and attention to the school district's legal responsibility for the safety and welfare of students, including the need to ensure that students are under supervision at all times.
7. Pay careful attention to all professional and support staff duties, including pupil transportation, food services, maintenance and custodial services, attendance keeping and record keeping, student discipline, reporting to parents/guardians, and supervision of students.

The custodians have assigned areas in the Knox County R-I School District buildings. Their job is to care for the building and the contents. There are certain teacher responsibilities pertaining to the maintenance of school facilities:

- ✓ When teachers leave the building at the close of the day they should check the room for open windows, secure moneys and valuables in the office, and turn off all lights.
- ✓ Teachers are responsible for maintaining the cleanliness of cabinets and sinks in their immediate room area.
- ✓ Teachers are responsible for seeing that students have trash, shoes, and other items picked up off the floor every night.
- ✓ When using the facilities after normal school hours, teachers should make sure that everything is locked, in order, and all lights are shut off.

The unlawful possession, use or distribution of illicit drugs and alcohol on school premises or as a part of school activities is strictly prohibited. Similarly, CBD and similar products are prohibited on school premises and at school activities. Analysis of the strength and presence of unacceptable levels of psychotropic content are at best unreliable. Use of such products may jeopardize the safety of staff and students who are under staff supervision.

Employees under the influence of alcohol, drugs, or controlled substances while on duty are a serious risk to themselves, to students and to other employees. Employees who display physical manifestations of drug or alcohol use while on duty, may be subject to drug testing. Any employee who violates this policy

will be subject to disciplinary action up to and including termination and referral for prosecution. Employees may also be required to satisfactorily participate in rehabilitation programs.

As a condition of employment, all employees must abide by the terms of this policy. Employees who are convicted of a drug offense which occurred on school premises or while on duty must notify the Superintendent of their conviction. Notification must be made by the employee to the Superintendent within five (5) days of the conviction. Within ten (10) days, the Superintendent will provide notice of such violation to the Impact Aid Program, United States Department of Education, or other appropriate government agency.

The District will institute a drug-free awareness program to inform employees of:

1. The dangers of drug and alcohol abuse in the workplace.
2. This policy of maintaining a drug-free workplace.
3. Available counseling and rehabilitation.
4. The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace.

On the basis of medical certification, employees with the illness of chemical dependency shall qualify for the employee benefits and group insurance coverages that are provided for under group health and medical insurance policies. The confidential nature of the medical records of Policy 4870 Page 2 employees with chemical dependency shall be preserved in the same manner as for all other medical records.

The District's responsibility for chemical dependency is limited to its effects on the employee's job performance. If the employee violates this policy, refuses to accept diagnosis and treatment, or fails to respond to treatment, and performance is adversely affected, the employee will be subject to employment action in proportion to the performance problem. Implementation of this policy will not require or result in any special regulations, privileges or exemptions from the standard administrative practice applicable to job performance requirements.

Upon the request of the Department of Elementary and Secondary Education or an agency of the United States, the District shall certify that it has adopted and implemented the drug prevention program described in this policy, in the form required by such agency. The District shall conduct a biennial review of this policy to determine its effectiveness, implement necessary changes, and to ensure that the disciplinary sanctions are consistently enforced.

It shall be a violation of this policy for any employee to possess, use, manufacture, distribute, or be under the influence of medical marijuana in any manner inconsistent with Missouri state law and applicable regulations. Additionally, employees may not be under the influence of marijuana while they are (i) acting in the scope of their employment, whether on District property or off, or (ii) present at any school- or District-sponsored or sanctioned event such as athletic events or conferences. Employees may seek reasonable accommodations related to medical marijuana under the District's policies and procedures addressing the Americans with Disabilities Act.

Transportation Employees

District employees who are subject to the Transportation Employee Testing Act may not use medical marijuana on work days and may not use marijuana while on District transportation. Transportation employees who test positive for any controlled substance including marijuana are subject to dismissal. Transportation employees who cannot, for medical reasons, comply with this policy may request a transfer to a non-safety sensitive position. The information in this policy will be distributed to all present and future employees.

Opioid Antagonists

The District will maintain NARCAN or other opioid antagonists to be admitted in emergency situations by a trained school nurse. (See Policy 2874 - Administering Opioid Antagonists).

NON-SMOKING (Policy 5250)

The Board of Education recognizes that the use of tobacco products represents a health and safety hazard. Therefore, the use of tobacco products shall be prohibited in all District buildings, grounds and vehicles. This policy applies to all employees, students and patrons attending school-sponsored activities and meetings.

For the purposes of this policy, smoking will mean all uses of tobacco, including cigars, cigarettes, electronic cigarettes, or imitation tobacco or cigarette products, pipes, and smokeless-tobacco products.

BULLYING (Policy 2655)

The District is committed to maintaining a learning and working environment free of any form of bullying or intimidation. Bullying is strictly prohibited on school grounds, or school time, at a school sponsored activity or in a school related context. Bullying is the intentional action by an individual or group of individuals to inflict intimidation, unwanted aggressive behavior, or harassment that is repetitive or is substantially likely to be repeated and causes a reasonable student to fear for his or her physical safety or property; substantially interferes with the educational performance, opportunities, or benefits of any student without exception; or substantially disrupts the orderly operation of the school. Bullying may consist of physical actions, including gestures, or oral, cyberbullying, electronic, or written communication, and any threat of retaliation for reporting acts of bullying.

Cyberbullying means bullying as defined above through the transmission of a communication including, but not limited to, a message, text, sound, or image by means of an electronic device including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager. The District may prohibit and discipline for cyberbullying that originates on any District campus or at a District activity if the electronic communication was made using the school's technological resources, if there is a sufficient nexus to the educational environment, or if the electronic communication was made on the District's campus or at a District activity using the student's own personal technological resources. Further, students who engage in significant acts of misconduct off campus which materially and adversely impact the education of District students will be subject to discipline.

Bullying, as defined in this policy, is strictly prohibited. Students are encouraged to report any incident of bullying which they have witnessed or incurred, by contacting their building principal. District employees are required to report any instance of bullying of which the employee has witnessed within two (2) school days of the occurrence. Employees shall report the occurrence to the building principal, who is the person the District designates to receive reports of incidents of bullying. A principal who receives a report of an incident of bullying shall initiate an investigation into the allegations within

two (2) school days of receipt of the report. The principal may assign other employees to assist in the investigation, or request that the superintendent assign an outside investigator.¹² The investigation shall be completed within ten school days from the date of the written report of bullying unless good cause exists to extend the investigation. No employee or student who reports an act of bullying shall be subject to reprisal or retaliation for making such a report. Any person who engages in reprisal or retaliation against an employee or student who reports an act of bullying shall be subject to disciplinary action.

Students who are found to have violated this policy will be subject to consequences depending on factors such as: age of student(s), degree of harm, severity of behavior, number of incidences, etc. Possible consequences to a student for a violation of this policy include: loss of privileges, classroom detention, conference with teacher, parents contacted, conference with principal, in- school suspension, out-of-school suspension, expulsion and law enforcement contacted.

The District shall give annual notice of the policy to students, parents or guardians, and staff. This policy shall be included in all student handbooks. This policy shall also be posted on the District's web page (as a Board policy) and a copy shall be placed in the District Administrative Office. The District shall provide information and appropriate training to District staff who have significant contact with students regarding the policy. All staff with significant student contact shall be trained on the requirements of this policy on an annual basis. The District shall provide education and information to students regarding bullying, including information regarding this policy prohibiting bullying, the harmful effects of bullying, and other applicable initiatives to address bullying, including student peer-to-peer initiatives to provide accountability and policy enforcement for those found to have engaged in bullying, reprisal, or retaliation against any person who reports an act of bullying. The District shall instruct its school counselors, school social workers, licensed social workers, mental health professionals, and school psychologists to educate students who are victims of bullying on techniques for students to overcome bullying's negative effects. Such techniques include but are not limited to, cultivating the student's self-worth and self-esteem; teaching the student to defend himself or herself assertively and effectively; helping the student develop social skills or encouraging the student to develop an internal locus of control. District administrators will implement programs and other initiatives to address bullying, to respond to such conduct in a manner that does not stigmatize the victim, and to make resources or referrals available to victims of bullying.

The employee so affected may be returned to work if the allegation is unsubstantiated, revised or reversed on appeal.

PERFORMANCE EVALUATION (Policy 4610)

The Board of Education's ultimate goal in education is to provide the highest quality educational experience to all District students. The District's performance-based evaluation system contributes to that goal by promoting the professional improvement of each staff member and, when necessary, by providing data to remove an employee whose employment is detrimental to students. Performance-based evaluation is a process endorsed by the Board of Education for performance improvement that includes identification of performance expectations, documentation of performance, discussion of performance, development of improvement plans, and making personnel decisions based upon performance. The evaluation process for every employee is an on-going process that takes place every day. Formal, summative evaluations will be prepared and reviewed with each tenured teacher at least every other year. All other District employees will receive summative evaluations annually.

If the parent is attending a meeting, etc. and is unable to directly supervise, he or she is expected to make arrangements for other supervision.

INTERNET USAGE (Policy 6320)

Personal Responsibility

Access to electronic research requires students and employees to maintain consistently high levels of personal responsibility. The existing rules found in the District's Behavioral Expectations policy (Board Policy/Regulation 2610) as well as employee handbooks clearly apply to students and employees conducting electronic research or communication.

One fundamental need for acceptable student and employee use of District electronic resources is respect for, and protection of, password/account code security, as well as restricted databases files, and information banks. Personal passwords/account codes may be created to protect students and employees utilizing electronic resources to conduct research or complete work.

These passwords/account codes shall not be shared with others; nor shall students or employees use another party's password except in the authorized maintenance and monitoring of the network. The maintenance of strict control of passwords/account codes protects employees and students from wrongful accusation of misuse of electronic resources or violation of District policy, state or federal law. Students or employees who misuse electronic resources or who violate laws will be disciplined at a level appropriate to the seriousness of the misuse.

Acceptable Use

The use of the District technology and electronic resources is a privilege, which may be revoked at any time. Staff and students are only allowed to conduct electronic network-based activities which are classroom or

workplace related. Behaviors which shall result in revocation of access shall include, but will not be limited to: damage to or theft of system hardware or software; alteration of system hardware or software; placement of unlawful information, computer viruses or harmful programs on, or through the computer system; entry into restricted information on systems or network files in violation of password/account code restrictions; violation of other users' rights to privacy; unauthorized disclosure, use or dissemination of personal information regarding minors; using another person's name/password/ account to send or receive messages on the network; sending or receiving personal messages on the network; and use of the network for personal gain, commercial purposes, or to engage in political activity.

Students and employees may not claim personal copyright privileges over files, data or materials developed in the scope of their employment, nor may students or employees use copyrighted materials without the permission of the copyright holder. The Internet allows access to a wide variety of media. Even though it is possible to download most of these materials, students and staff shall not create or maintain archival copies of these materials unless the source indicates that the materials are in the public domain.

Access to electronic mail (E-mail) is a privilege and designed to assist students and employees in

the acquisition of knowledge and in efficiently communicating with others. The District E-mail system is designed solely for educational and work related purposes. ***E-mail files are subject to review by District and school personnel.*** Chain letters, "chat rooms" or Multiple User Dimensions (MUDs) are not allowed, with the exception of those bulletin boards or "chat" groups that are created by teachers for specific instructional purposes or employees for specific work related communication.

Students or employees who engage in "hacking" are subject to loss of privileges and District discipline, as well as the enforcement of any District policy, state and/or federal laws that may have been violated. Hacking may be described as the unauthorized review, duplication, dissemination, removal, damage, or alteration of files, passwords, computer systems, or programs, or other property of the District, a business, or any other governmental agency obtained through unauthorized means.

To the maximum extent permitted by law, students and employees are not permitted to obtain, download, view or otherwise gain access to "inappropriate matter" which includes materials that may be deemed inappropriate to minors, unlawful, abusive, obscene, pornographic, descriptive of destructive devices, or otherwise objectionable under current District policy or legal definitions.

The District and school administration reserve the right to remove files, limit or deny access, and refer staff or students violating the Board policy to appropriate authorities or for other disciplinary action.

Privileges

The use of District technology and electronic resources is a privilege, not a right, and inappropriate use will result in the cancellation of those privileges. All staff members and students who receive a password/account code will participate in an orientation or training course regarding proper behavior and use of the network. The password/account code may be suspended or closed upon the finding of user misuse of the technology system or its resources.

Network Etiquette and Privacy

Students and employees are expected to abide by the generally accepted rules of electronic network etiquette. These include, but are not limited to, the following:

1. System users are expected to be polite. They may not send abusive, insulting, harassing, or threatening messages to others.
2. System users are expected to use appropriate language; language that uses vulgarities or obscenities, libels others, or uses other inappropriate references is prohibited.
3. System users may not reveal their personal addresses, their telephone numbers or the addresses or telephone numbers of students, employees, or other individuals during E- mail transmissions.

4. System users may not use the District's electronic network in such a manner that would damage, disrupt, or prohibit the use of the network by other users.
5. System users should assume that all communications and information is public when transmitted via the network and may be viewed by other users. The system administrators may access and read E-mail on a random basis.
6. Use of the District's electronic network for unlawful purposes will not be tolerated and is prohibited.

Services

While the District is providing access to electronic resources, it makes no warranties, whether expressed or implied, for these services. The District may not be held responsible for any damages including loss of data as a

result of delays, non-delivery or service interruptions caused by the information system or the user's errors or omissions. The use or distribution of any information that is obtained through the information system is at the user's own risk. The District specifically denies any responsibility for the accuracy of information obtained through Internet services.

Security

The Board recognizes that security on the District's electronic network is an extremely high priority. Security poses challenges for collective and individual users. Any intrusion into secure areas by those not permitted such privileges creates a risk for all users of the information system.

The account codes/passwords provided to each user are intended for the exclusive use of that person. Any problems, which arise from the user sharing his/her account code/password, are the responsibility of the account holder. Any misuse may result in the suspension or revocation of account privileges. The use of an account by someone other than the registered holder will be grounds for loss of access privileges to the information system.

Users are required to report immediately any abnormality in the system as soon as they observe it. Abnormalities should be reported to the classroom teacher or system administrator.

The District shall use filtering, blocking or other technology to protect students and staff from accessing internet sites that contain visual depictions that are obscene, child pornography or harmful to minors. The District shall comply with the applicable provisions of the Children's Internet Protection Act (CIPA), and the Neighborhood Internet Protection Act (NCIPA).

Vandalism of the Electronic Network or Technology System

1. Suspension of District Network privileges;
2. Revocation of Network privileges;

PROCEDURES

ATTENDANCE

Attendance in the middle and high school is calculated by periods. Classroom attendance should be taken at the beginning of the period and absentees/tardies recorded in your grade book. The middle/high school teachers will record absences and tardies in SIS K12 at the beginning of *EACH* hour. Teacher who fail to input attendance will receive a reminder from the building level principal.

At the beginning of each day, the elementary classroom teacher will record absences and lunch in SIS K12. Kindergarten and first grade will record if a student will be drinking afternoon milk on a class list and return to the office by 9:00 a.m. These forms are printed in the principal's office. If you run out, ask the secretary for additional forms.

ANY STUDENT WHO ARRIVES LATE OR LEAVES EARLY SHOULD REPORT THROUGH THE OFFICE.

DISCIPLINE

Discipline is the teacher's responsibility. An effective disciplinarian will minimize the trouble involving student conduct. Two basic areas of discipline warrant the involvement of the principal.

1. A singular behavioral action of significant magnitude such as immoral conduct, profanity, fighting, etc.
2. A consistently recurrent behavioral problem even of a minor nature which your efforts as a teacher have not been successful in curtailing.

A discipline referral form (electronic or paper) must accompany any student sent to the Principal's Office.

Some discipline basics:

1. All students will be given rules and consequences the first day of school. They will be explained to each class.
2. BE CONSISTENT hour to hour and day to day. Follow through and be firm.
3. Rules and consequences are to be posted in your classroom for all students to see.
4. All students who behave appropriately should be given positive reinforcement.
5. A major component of good student discipline is teacher preparation. Plan challenging, educational instruction activities to keep students involved for each class period.
6. **Handle routine discipline problems yourself.**
7. **DO NOT** have students involved in recording discipline “marks”, etc... for other students. The teacher is in charge of maintaining discipline. Bathroom and/or hall monitors are not to be allowed to discipline another student for any reason.
8. Refer to PBS Behavior Matrix Flow Charts, recognition and various components of the program when planning and implementing discipline procedures.

- The space in which the student is placed must be free of objects that could cause harm.

Isolation shall never be used as a form of punishment or for the convenience of school personnel.

Physical Restraint

Physical restraint shall only be used in one of the three circumstances below:

- In an emergency situation, as defined in this policy;

Any use of restraint, isolation or aversive behavior interventions must be limited to what is set forth in the IEP or Section 504 plan. Before adding the use of restraint, isolation or aversive behavior interventions to an IEP or Section 504 plan, the student must have undergone appropriate assessments to include, but not limited to, a formal functional behavior assessment and a positive behavior intervention plan must be developed, which indicates a plan to eliminate the use of the restraint, isolation or aversive behavior intervention over time.

Knox County R-I School District,

GRADE BOOK

Accurate documentation that will provide a clear pattern of student progress is necessary to make record keeping speak for itself. An observer should be able to look at the record and be able to ascertain pupil progress and the reason for grade assignment and/or credit. Grades will be kept on the SIS K12 computer program. Training will be provided. Teachers should maintain a proper grade book which will be turned into the office at the end of the school year.

Grades should be kept up to date.

Updating all grade books is required prior to the end of the school day on Fridays. Parents can apply to have access to their child's grade book via the Internet Grade books will be checked weekly to evaluate progress.

GRADING PROCEDURES

The following information is to provide clarity to grading procedures. Please discuss these with the principal if they are unclear.

Because of the importance attached to your role in the future status of our school's students, it is imperative that class records regarding grades and attendance are totally accurate and concise.

COMPLETE DOCUMENTATION IS NECESSARY TO SUSTAIN THE ASSIGNMENT OF GRADES OR CREDIT GIVEN TO ANY STUDENT. If at any time a student is not making sufficient progress in any subject, it is viewed as the teacher's responsibility to discuss the status of the student with the parent. To be fair and consistent with students, teachers must be sure that grading procedures are thoroughly presented and understood by all students. Do not take for granted that a student knows how evaluation of assignments and work is made.

LESSON PLANS

All teachers shall keep a detailed plan book that includes specific directions and lists of needed materials. This should include the topics to be covered, their link to the Missouri Learning Standards, the pages covered in texts, activities to be done, and the day it is to be covered. Lesson plans should be completed on the Friday in advance of the week to be covered. These books should be kept at school on the teacher's desk so that emergency substitutes may easily find them.

Principals may periodically review lesson plans. First year teachers will submit lesson plans to the principal each Friday for the first semester. *Any teacher may be required to turn in lesson plans weekly per request of the principal.*

FIELD TRIPS (Policy 5660)

Definitions

Field trip – A planned visit outside the classroom taken by students under the supervision of a teacher or other school official for the purpose of extending the instructional activities of the classroom through first-hand experience and participation in functional situations that relate directly to what is being studied.

Local field trip – A field trip that usually falls within a twenty-five (25) mile radius of the school, takes place within the regular school day and uses contracted or District transportation.

Field trip transportation may be funded from sources other than Board of Education funds. This may include PTO contributions, authorized fees, government funds and income generated by school activities.

Target does offer a field trip grant in the amount of 750.00. Teachers are encouraged to apply for this grant to help offset the costs the district incurs. Please apply early in the year and see Mrs. Goodwin for assistance

The Superintendent/ designee shall have approved all aspects of such programs, and notification of the programs, together with implementing procedures, shall be sent to the schools. These should be designed for the summer vacation, holidays or for other times that do not entail long absences of either teachers or students from the regular school session. Any fund-raising activity which involves students or employees shall require submission of a request and the approval of the building principal and Superintendent. Involvement is defined as: any activity which mentions any student or students as being students of the school in advertisements or any activity which mentions any school organization or any oral mention of students or organizations. (Reference PR2750)

STAFF ABSENCES

If teachers are going to be absent and need a substitute, they will need to follow the listed procedures. Lesson plans and seating charts must be available for the substitute. If teachers need to be gone for any reason (conference, personal, doctor, etc.) they must fill out a staff absence report and turn it into the office. **All staff absences, with the exception of overnight illness, need to be approved by the principal before substitutes will be found.** Substitutes will not be found without a written request ahead of time-with the exception of illness. If teachers have to

leave early for one period for athletics or other school-related function, etc. it is the teacher's responsibility to find another staff member to cover their class and/or responsibility and report that substitution to the office.

Staff members who will be gone for one to four hours will be required to take a half day leave. Those gone 4 or more hours will be required to take a full day leave. If gone an hour or less after being granted permission but their administrator that time will accumulated and then dock will occur after either a half or full day leave has been accumulated.

RESIGNATION OF CERTIFICATED STAFF (Policy 4710) **(Regulation 4710)**

Certificated employees who for any reason intend to retire or resign at the end of the current school year are encouraged to indicate their plans in writing to the Board as early as possible, but no later than June 1.

Resignations to become effective during the school year require a release by the Board and must be considered on an individual basis. Letters of resignation shall be submitted to the Superintendent/designee and the principal/supervisor. The letter should state reasons and an effective date for the resignation.

It is the practice of the administration to recommend to the Board those certificated employees who request to resign after June 1 and prior to July 31 be released from their contracts when there is good cause determined by the Board. After July 31, a certificated employee may petition the Superintendent to recommend a release from his/her contract for extremely unusual reasons.

Should the Superintendent decline to recommend a release and the certificated employee leaves the District, the District reserves the right to pursue any and all legal options available to it.

Liquidated Damages/Release from Contract

Staff members not planning to return to the Knox County R-I School District for the next school year should submit their letters of resignations to the central office as soon as resignation plans are finalized. The staff member must complete all checkout procedures with the appropriate administrator. If a resignation is requested by the certificated staff member after a contract has been signed and returned, the Board shall judge it according to the availability of a suitable replacement. Because of the additional difficulties involved in securing replacements, the Board shall assess a fee as a condition of releasing a staff member from a contract. The following schedule shall be used:

Resignations June 1 to June 30 3% of contract

Resignations July 1 to July 31 4% of contract

Resignation August 1 to completion of contract 5% of contract

The Board reserves the right to waive or reduce the fee/forfeiture dependent on mitigating factors submitted by the resignee. If said fee/forfeiture is not waived by the Board, the resignee shall pay

34

same before he or she is released from his or her contract, or sign a promissory note to pay same, at the resignee's notice. If the resignee shall refuse to either pay said fee/forfeiture or sign said promissory note, but does not honor his/her contract, the Board shall have the right to bring suit against resignee for breach of contract. If such suit is brought, the Board shall be entitled to recover not only its actual and compensable damages, but also its attorney fees and court costs.

Nothing in this policy shall be construed as granting a right to release from contract upon payment of a fee without the consent of the Board of Education.

PERSONNEL ASSIGNMENT AND TRANSFER (Policy 4200/4210)

Certificated staff accepting employment with the District agrees to accept the building assignment of the Superintendent of Schools. Staff will not be assigned where they would be under the direct supervision of a member of the employee's immediate family (father, mother, son, daughter, sister, brother, or spouse).

Certificated staff transfers may be initiated by administrative directive or by staff request. In order to facilitate awareness of opportunities, the Superintendent/designee will post vacancies. The Superintendent in consultation with the building principals affected will make the decision concerning filling of the vacancy or new positions by transfer.

A teacher who desires a change in grade and/or subject assignment and/or a transfer to another building shall request the transfer in writing on or before April 1.

The teacher must accept the transfer request unless he/she has notified the administration in writing of a desire to withdraw the request and said notification is received before the date on which notification of transfer is sent to the teacher.

E-MAIL RECORDS AND ELECTRONICALLY STORED INFORMATION (Policy 6530)

Any e-mails that constitute a record under District Policy and Regulation 6531 or otherwise

should be retained for the benefit of the District and therefore must be saved for an extended period of time to exceed one month shall either be 1) printed and physically filed in such a way that it will be easily retrievable or 2) saved directly to a file on one of the District servers from which it will be easily retrievable. The District will regularly delete unnecessary e-mails on the District's computer system, typically, on the first school day of each month during the school year.

Until the District's e-mail system can be equipped with such capabilities, all District e-mail account holders shall regularly update their e-mail account by either saving necessary and pertinent e-mails to a District approved storage device, printing them and filing them appropriately, or deleting unnecessary e-mails from their account. This process shall become a permanent and regular occurrence if the automatic deletion process is not implemented into the District's e-mail system.

ACCIDENT REPORTING (Policy 5230)

The following guidelines are to be used to determine whether or not a report is to be completed. A report should be completed when:

1. The accident requires that a doctor be called.
2. The accident results in absence of student for one-half day or more.
3. The accident results in a serious injury.
4. When in doubt about whether or not a report is needed, complete
one. Accident Report Procedure

 5. The principal forwards the original copy to the Superintendent/designee. A copy remains in the school.
 6. The Superintendent/designee is responsible for evaluation of the report. It is to serve as a basis for a safety and accident prevention program.

(Regulation 2875)

Student Services

Student Allergy Prevention and Response

The purpose of this policy is to create an organized system for preventing and responding to allergic reactions in accordance with House Bill 922 (2009). This policy is not a guarantee of an allergen-free environment; instead, it is designed to increase awareness, provide education and training, reduce the chance of exposure and outline responses to allergic reactions.

This policy applies to district facilities to which students have access and includes transportation provided

by the district. The Board instructs the superintendent or designee to develop procedures to implement this policy.

Identification

An allergic reaction is an immune system response to a substance that itself is not harmful but that the body interprets as being harmful. Allergic reactions range from mild to life-threatening. Each school in the district will attempt to identify students with life-threatening allergies, including food allergies. At enrollment, the person enrolling the student will be asked to provide information on any allergies the student may have.

Prevention

Students with allergies that rise to the level of a disability as defined by law will be accommodated in accordance with district policies and procedures pertaining to the identification and accommodation of students with disabilities. An Individualized Health Plan (IHP), including an Emergency Action Plan (EAP), may be developed for students with allergies do not rise to the level of a disability.

All staff members are required to follow any 504 Plan or IHP/EAP developed for a student by the district. Staff members who do not follow an existing 504 Plan or IHP/EAP will be disciplined, up to and including termination.

Staff members shall not use air fresheners, oils, candles, incense or other such items intended to add fragrance in any district facilities. This provision will not be construed to prohibit the use of personal care items that contain added fragrance, but the principal may require staff members to refrain from the use of personal care items with added fragrance under particular circumstances.

Staff members are prohibited from using cleaning materials, disinfectants, pesticides or other chemicals except those provided by the district.

The district will not serve any processed foods, including foods sold in vending machines, which are not labeled with a complete list of ingredients. Vended items must include a list of ingredients on the individual package. The food service director will create an ingredient list for all foods provided by the district as part of the district's nutrition program, including food provided during the school day and in before- and after-school programs. This list will be available upon request.

Education and Training

All staff members will be annually trained on the causes and symptoms of and responses to allergic reactions. Training will include instruction on the use of epinephrine pre-measured auto-injection devices.

Age-appropriate education on allergies and allergic reactions will be provided to students as such education aligns with state Grade-Level Expectations (GLEs) for health education. Education will include potential causes, information on avoiding allergens, signs and symptoms of allergic reactions and simple steps students can take to keep classmates safe.

Confidentiality

Information about individual students with allergies will be provided to all staff members and others who need to know the information to provide a safe learning environment for the student. Information about individual students with allergies will be shared with students and others who do not have a legitimate educational interest in the information only to the extent authorized by the parent/guardian or as otherwise permitted by law, including the Family Educational Rights and Privacy Act (FERPA).

Response

Response to an allergic reaction shall be in accordance with established procedures, including application of the student's 504 Plan or IHP/EAP, where applicable. Parents of students with life-threatening allergies should supply the school with epinephrine pre-measured auto-injection devices to be administered in accordance with Board policy.

PERSONNEL LEAVE (Policy 4320)

Paid Sick Leave District employees will be provided with ten (10) days of sick leave. Sick leave may only be used for illness of the staff member or the staff member's immediate family. Immediate family is defined as spouse, parent, grandparent, child, sibling, father-or mother-in-law, daughter-or son-in-law, grandparent-in-law, brother-or sister-in-law, grandchild, or non-family residing within the staff member's home. The Superintendent/designee may request a physician's statement regarding an absence and/or verification that the employee may return to work. Unused sick leave may be accumulated to a maximum of one hundred ten (110) days.

Personal Leave

Paid personal leave days may only be used for personal business that cannot be transacted in nonwork hours. Personal leave days cannot be used for work stoppages, vacation or recreation use. Employees desiring to use personal days must schedule a request to the faculty principal at least one week in advance. The Superintendent/designee has the right to deny any request for personal leave that does not conform to the policy or would cause a hardship to students or staff. Employees will be provided with five (5) days of personal leave per year which shall be noncumulative. Personal days are included in the ten (10) sick days allowed per school year.

Inclement Weather Days

Three (3) days may be used by a 12 month employee if school is called off for inclement weather. In order for 12 month employees to be able to use these days, school must be canceled because of snow, extreme cold, or ice. The purpose of these days is to ensure that employees do not feel the need to drive to work on days where the roads are not safe to drive on.

Bereavement Leave

Three (3) days may be used by an employee in any school year for bereavement purposes. Bereavement leave is available only upon the death of a member of the employee's immediate family, as that term is defined in the sick leave regulation above. Use of these days will not be charged to personal or sick leave. The superintendent may grant additional days, if needed, which will be charged against the employee's personal and/or sick days. Verification for the leave may be required by the superintendent or designee.

Leave for Jury Duty

Employees called for jury duty, for participation in the jury selection process, or subpoenaed to testify in a civil or criminal proceeding will be granted leave with pay. Employees will receive their normal pay less any jury or witness fees received. Employees called for jury selection, or service on a jury, or to testify in response to a subpoena will not be requested or required to use annual vacation, personal leave, or sick leave for time required in such civic service.

Military Leave

An employee who is a member of the National Guard, or an organized military service of the United States, and who is required by laws of the United States or the State of Missouri to report for military duty, including training, shall be eligible for a grant of military leave.

Application for military leave shall be made in advance, as soon as practicable after the employee becomes aware of his/her obligation to report and immediately upon the employee's receipt of official notice to report. A copy of the official orders must be added to the leave application. The Superintendent/designee must approve the application. Emergency mobilization orders shall be dealt with on an individual basis.

The District recognizes that employees who receive notice to report for duty typically are not provided with discretion as to when to report. However, whenever an employee has a choice as to when to report for military duty, the employee's military leave shall be arranged during periods in which school is not in session. When the employee is given a choice as to when to report for duty, the Superintendent/designee may request that the employee seek a change in military orders if such a change appears to be in the best interest of the District.

Employees shall receive leave with pay for the first fifteen (15) calendar days of military leave in each federal fiscal year. Additional military leave shall be without pay, except as required by federal and state law. Each employee shall furnish a copy of the employee's military payroll voucher to the Superintendent/designee within thirty (30) days of the employee's return to regular assignment so that the necessary salary adjustments can be made.

Employee eligibility for reinstatement after military duty is completed shall be determined in accordance with federal and state laws.

Leave of Absence

Upon the recommendation of the Superintendent/designee and the approval of the Board, an employee of the District may be granted a leave of absence for non-Family and Medical Leave Act (FMLA) child care, education, or other good cause. Such leave is renewable upon written request for one additional year only. Application for leave is to be made in writing to the Superintendent/designee via Principal/supervisor and must include the period for which the leave is requested and the reasons for the request. The period should be set to least disrupt the education of students. Requests for leave for an entire school year should normally be made in writing before March 1 of the preceding year.

If leave is approved by the Board, the employee is not paid for the period of the leave. Insurance benefits may be continued by the employee by making all payments to the Payroll Office, one month in advance.

Whenever a leave of absence has been granted by the Board to the end of the school year, the employee must notify the Superintendent in writing by the first day of March of an intention to resume his/her position at the beginning of the next school year. Failure to notify the Superintendent/designee of such intention will be regarded as a resignation.

Upon completion of an approved leave, provided proper notification is given, a teacher will be re-employed by the District unless placed on involuntary leave of absence if tenured; or, if notified of non-renewal of contract by April 15 if a probationary teacher.

If desired, and whenever feasible, the employee will be placed on the same or equivalent position to the one held prior to the approved leave.

NOTE: Leave of absence without pay under the provisions of this regulation does not apply as service towards tenure for probationary teachers.

WORKER'S COMPENSATION BENEFITS (Policy 4530)

Employees who suffer an injury caused by an accident or occupational disease arising out of and in the course of employment ("work-related injury") will receive benefits paid by the District according to the Workers' Compensation Law of the State of Missouri ("the Law"). Employees Driving district owned or subsidized vehicles are not covered by this policy when driving such District owned vehicles to or from the home or to or from the work station. Absence from duty resulting from a work-related injury will be compensated according to the Law. Employees who receive workers' compensation benefits for lost time from work due to a work-related injury are not eligible for additional sick leave or vacation benefits under this policy, except with respect to those employees whose average weekly wage as defined by the Law ("average weekly wage") exceeds the actual wage necessary to obtain the maximum total disability rate as defined by the Law ("maximum wage").

In addition to the benefits for temporary total disability allowed under the Law, an employee whose average weekly wage at the time of the work-related injury exceeds the maximum wage at the time of the work-related injury will receive in wages the difference between the employee's average weekly wage and the maximum wage during the time period such employee is entitled to temporary total disability benefits under the Law. This additional benefit provided herein does not affect an employee's wage for purposes of permanent disability benefits.

SALARY DEDUCTIONS (Policy 4520)

Withholding Taxes

A Federal Withholding Tax is retained for the Collector of Internal Revenue as payment on Federal Income Tax for the current year. The amount withheld is determined by salary and the number of dependents. No salary check will be issued until all withholding forms are submitted. A State Withholding Tax is retained for the Missouri Department of Revenue. The amount withheld is determined in the same manner as the Federal Income Tax. Employees may authorize additional sums to be withheld by notifying the payroll department in writing and completing a new W-4 form indicating the additional amount to be withheld each pay period. No salary checks will be issued until all withholding forms are submitted.

Public School Retirement System (PSRS) of Missouri

All full-time teachers and part-time teachers who work seventeen (17) hours or more per week are members of PSRS. Support employees with a teaching certificate are also eligible for membership in PSRS.

Additional Deductions

Any staff member may authorize additional voluntary deductions for payment of tax-sheltered annuities, dues to professional organizations, credit union, and dependent coverage for medical benefits.

FAMILY AND MEDICAL LEAVE (Policy 4321)

The Board of Education recognizes that leaves of absence are occasionally necessary due to family or medical reasons. The District has adopted detailed procedures to ensure compliance with the Family and Medical Leave Act of 1993 (FMLA). As provided by District regulations,⁴⁰

eligible employees are entitled to use up to twelve (12) workweeks of unpaid leave for family and medical reasons. The Board of Education has designated a District administrator to act as FMLA Compliance Officer. As part of its compliance program, the District will notify each employee of the name, address and telephone number of the District's FMLA Compliance Officer and will provide a statement of commitment to adhere to FMLA regulations. The FMLA Compliance Officer will regularly evaluate the District's FMLA compliance to ensure fair and equitable opportunities for all eligible employees.

A. ELIGIBLE EMPLOYEES

Employees eligible for family and medical leave must:

1. Have been employed for a total of at least twelve (12) months (not necessarily consecutive); and
2. Have worked at least 1,250 hours during the twelve (12) months immediately preceding the commencement of the leave (for non-instructional staff and part-time instructional staff), or have been considered full-time (for instructional employees); and
3. Be employed at a work-site where the employer employs at least fifty (50) employees within a 75-mile radius.

QUALIFYING REASONS FOR LEAVE

An eligible employee may take unpaid leave for the following reasons:

4. The birth of the employee's child (leave must be concluded within one (1) year of the date of birth).
5. The placement of a child with the employee for adoption, or foster care when fosterplacement is pursuant to State action (leave must be concluded within one (1) year of the date of placement).
6. The care of the employee's child (including biological, adopted, or foster child, stepchild, legal ward, or child of a person standing in loco parentis, who is either under age 18, or age 18 or older and is incapable of self-care because of mental or physical disability), spouse or parent (including a person who stood in loco parentis to the employee when the employee was a child -- but not parent "in-law"), who has a serious health condition.
7. The serious health condition of the employee that makes the employee unable to perform the essential functions of the employee's position.
8. Any qualifying exigency arising out of the fact the employee's spouse, son, daughter, or parent is a covered military member on active duty (or has been notified of an impending call or order to active duty) in support of a contingency operation.
9. The care for a covered service member with a serious injury or illness, if the employee is the spouse, son, daughter, parent, or next of kin of the service member.

B. DEFINITIONS

1. Serious Health Condition - An illness, injury, impairment, or physical or mental condition that involves the following:

a. **Inpatient Care:** Inpatient care (overnight stay) in a hospital, hospice, or residential medical care facility, including any period of incapacity or any subsequent treatment in connection with

c. **Exceptions:** Unless complications develop, a Serious Health Condition **does not** include such inpatient care.

b. **Continuing Treatment:** Continuing treatment by a health care provider, including the following:

i. *Incapacity and Treatment:* A period of incapacity of more than three consecutive calendar days and any subsequent treatment or period of incapacity relating to the same condition that also involves:

1. Treatment two or more times, within 30 days of the first day of incapacity, by a health care provider, by a nurse or physician's assistant under direct supervision of a health care provider, or by a provider of health care services under order of, or on referral by, a health care provider; or

2. Treatment by a health care provider on at least one occasion, which results in a regimen of continuing treatment under the supervision of a health care provider. The in-person treatment visit must take place within seven days of the first day of incapacity.

ii. *Pregnancy or Prenatal Care:* Any period of incapacity due to pregnancy, or for prenatal care (even if the absence does not last more than three days and the employee or family member does not receive treatment from a health care provider during the absence);

iii. *Chronic Conditions:* Any period of incapacity or treatment for such incapacity due to a chronic serious health condition (even if the absence does not last more than three days and the employee or family member does not receive treatment from a health care provider during the absence). A chronic serious health condition is one which:

1. Requires periodic visits for treatment by a health care provider, or by a nurse or physician's assistant under direct supervision of a health care provider;

2. Continues over an extended period of time (including recurring episodes of a single underlying condition);

3. May cause episodic rather than a continuing period of incapacity (e.g., asthma, diabetes, epilepsy, etc.).

iv. *Permanent or Long-Term Conditions:* A period of incapacity which is permanent or long-term due to a condition for which treatment may not be effective. The employee or family member must be under the continuing supervision of, but need not be receiving active treatment by, a health care provider. Examples include Alzheimer's, a severe stroke, or the terminal stages of a disease.

v. *Multiple Treatments:* Any period of absence to receive multiple treatments (including

any period of recovery therefore) by a health care provider or by a provider of health care services under orders of, or on referral by, a health care provider, either for restorative surgery after an accident or other injury, or for a condition that would likely result in a period of incapacity of more than three consecutive calendar days in the absence of medical intervention or treatment, such as cancer (chemotherapy, radiation, etc.), severe arthritis (physical therapy), kidney disease (dialysis), cosmetic treatments, such as most treatments for acne or plastic surgery, the common cold, the flu, ear aches, upset stomach, minor ulcers, headaches other than migraine, routine dental or orthodontia problems, periodontal disease, etc. Treatment for substance abuse by a health care provider or on referral by a health care provider may be a serious health condition if the conditions of this policy are met. Absence due to use of the substance, rather than for treatment, does not qualify for FMLA leave.

2. Treatment - examinations to determine if a serious health condition exists and evaluations of the condition. "Treatment" does not include routine physical, eye, or dental examinations.

3. Health Care Provider - includes doctors of medicine or osteopathy, podiatrists, dentists, clinical psychologists, optometrists, chiropractors (for limited purposes), nurse practitioners, nurse-midwives, clinical social workers, so long as they are licensed (if required by state law) and are performing within the scope of their practice as defined under state law; Christian Science practitioners listed with the First Church of Christ, Scientist, Boston, Massachusetts; any health care provider from whom an employer or a group health plan's benefit manager will accept certification to substantiate a claim for benefits; a health care provider as defined above who practices in a country other than the United States and is licensed in accordance with the laws of that country.

4. Regimen of continuing treatment - A course of prescription medication or therapy requiring special equipment to resolve or alleviate the health condition. A "regimen of continuing treatment" that includes the taking of over-the-counter medications such as aspirins, antihistamines, or salves, or bed rest, drinking fluids, exercise, and other similar activities that can be initiated without a visit to a health care provider, is not, by itself, sufficient to constitute a regimen of continuing treatment for purposes of FMLA leave.

5. Qualifying Exigency – One of the following activities or conditions, occurring while the employee's spouse, son, daughter, or parent is on active duty or call to active duty status in the National Guard or Reserves:

- a. Short-notice deployment - notice is received seven days or less from date of deployment;
- b. Military events and related activities;
- c. Childcare and school activities - arranging for alternatives or changed circumstances;
- d. Financial and legal arrangements;
- e. Counseling;
- f. Rest and recuperation – during period of deployment;
- g. Post-deployment activities; and
- h. Additional activities agreed upon by the employer and employee.

6. Covered Service members – Any **current** member of the Armed Forces, including the National Guard or Reserves.

7. Instructional employee - A person employed principally in an instructional capacity, whose principal function is to teach and instruct students in a class, a small group, or an individual setting, and includes athletic coaches, driving instructors, and special education assistants such as signers for the hearing impaired. The term does not include teacher assistants or aids that do not have as their principal function actual teaching or instructing, or auxiliary personnel such as counselors, psychologists, curriculum specialists, cafeteria workers, maintenance workers, bus drivers, or other primarily non-instructional employees.

D. LENGTH OF LEAVE

1. General Rule: An eligible employee is entitled to up to twelve (12) workweeks of unpaid leave within a twelve-month period without loss of seniority or benefits. When both spouses in a family work for the District, they will be entitled to a total of twelve (12) weeks of unpaid leave (rather than 12 weeks each) for the birth, adoption, or foster placement of a child, or to care for a parent with a serious health condition.

The amount of leave available to an employee at any given time will be calculated by using a “rolling” 12 month period measured backward from the date an employee uses any FMLA leave.

All leave taken under the policy and leave for any other reason that would qualify under FMLA (e.g., worker's compensation leave that qualifies as a serious health condition), will be counted against the employee's leave entitlement under FMLA.

When an employee is not required to report for work for one or more weeks (e.g., instructional employees who do not report for work during Christmas/New Year holiday, or during the summer), such days will not count against the employee's FMLA leave.

2. Care of Covered Service-members Leave: An eligible employee is entitled to 26 workweeks of leave to care for a covered service-member with a serious injury or illness during a single twelve-month period, which begins on the first day the eligible employee requests this type of FMLA leave. The employee may take leave to care for a covered service-member and leave for one of the other FMLA-qualifying reasons; however, in no event may an employee take more than 26 weeks of leave in a single twelve-month period.

3. Instructional Employees - End of Term Exceptions:

a. If an instructional employee seeks leave for any purpose, including the employee's own serious health condition, of at least three (3) weeks in duration and the requested leave

b. would begin more than five (5) weeks prior to the end of the academic term (school semester), the District may require the employee to continue taking leave until the end of the school term, if the instructional staff member's return to employment would otherwise occur during the three (3) week period before the end of such term.

c. If the instructional employee seeks leave for any purpose other than the employee's own serious health condition, less than five (5) weeks prior to the end of the academic term, the District may require the staff member to continue taking leave to the end of the term, if the leave is greater than two (2) weeks in duration and the return to employment would occur within two (2) weeks prior to the end of the term.

d. If the instructional employee takes leave for any purpose other than the employee's own serious health condition, within three (3) weeks prior to the end of the term, and duration of the leave is greater than five (5) days, the District may require the staff member to continue the leave until the end of the term.

When an employee is required to take leave until the end of an academic term, only the period of leave until the employee is ready and able to return to work shall be charged against the employee's FMLA leave entitlement.

E. COORDINATION WITH EXISTING LEAVE POLICIES

During a leave related to the employee's serious health condition, the employee shall exhaust all available paid sick leave, personal leave or vacation before continuing such leave on an unpaid basis.

During a family or medical leave provided under this regulation for all other FMLA-qualifying leave, an employee shall first exhaust all unused vacation or personal days before continuing such leave on an unpaid basis.

At the conclusion of any FMLA leave, an employee may elect to extend leave pursuant to the provision of other Board policies and regulations governing extended leave, so long as the employee is eligible for extended leave under such other policy or regulation. The amount of time taken for FMLA leave will be deducted from the period of leave available under other extended leave policies. Once the FMLA portion of the employee's leave has ended, and the employee has elected to continue on leave pursuant to another Board policy or regulation, the remaining portion of the leave will be governed by the provisions of the other policy or regulation with respect to compensation, benefits, reinstatement, and all other terms and conditions of employment as set forth in the other policy or regulation.

F. CERTIFICATION

The District shall retain the right to request a certification of the FMLA-qualifying need for leave from any employee making such a request. The procedure for providing such certification shall be as follows:

1. **Serious Health Condition** – When an employee requests a leave of absence for a FMLA-qualifying reason, the employee must submit to the Superintendent/designee, a written medical certification form (available in the Superintendent/designee's office). When the leave is for the employee's own serious health condition and District provides a list of the employee's essential job functions, the employee's health care provider must certify the employee is unable to perform an essential function of the employee's job.

a. **Timing** – Upon receipt from the District, an employee has fifteen calendar days to return a

complete and sufficient certification of the serious health condition. If the certification is incomplete or insufficient, as determined by the Superintendent/designee,

the District shall state in writing the nature of the deficiency and grant the employee seven additional calendar days to provide the District with a complete and sufficient certification. Failure to provide such certification within the specified time period may result in denial or delay of leave.

b. Who May Contact Health Care Provider – In the event the District determines an employee's certification remains either incomplete or insufficient, after the employee has been notified of any deficiencies and been granted time to correct such deficiencies, the

- i. The District's own health care provider;
- ii. Human resources professional;
- iii. Leave administrator; or
- iv. Administration official.

Under no circumstances will the employee's direct supervisor be permitted to contact the employee's health care provider to certify the employee's health condition. Should an employee deny the District the ability to communicate with the health care provider regarding an incomplete or insufficient certification, the employee will be denied FMLA leave.

c. Second/Third Opinion - The District reserves right to require an employee receive a second (and possibly a third) opinion from another health care provider (at the District's expense) certifying the serious health condition of the employee or family member.

d. Fitness for Duty - Before returning to work, an employee who is on leave for the employee's own serious health condition, must submit to the Superintendent/designee a health care provider's written certification form that the employee is able to perform the essential functions of the employee's job. The process for verifying the employee's fitness to return to duty shall be the same as for the initial certification set out above. Failure to provide a complete and sufficient fitness for duty certification may result in the delay or denial of job restoration.

e. Recertification - During the employee's leave, the District may periodically seek a recertification, no less than once every thirty days, unless the duration of the leave is known to

f. be longer, in which case the District will not seek recertification until the end of the known duration of FMLA leave. The general rule has three exceptions, which permit the District to immediately seek a recertification from the employee. These exceptions include the following: 1) the employee requests a leave extension; 2) the circumstances necessitating leave change; or 3) the District received information disputing the validity of an earlier certification.

g. Intent to Return to Work – The District may require an employee to periodically report on the employee's intent to return to work.

h. Family Relationship - Employees requesting FMLA-qualifying leave related to a family member may be requested to provide reasonable documentation of the family relationship.

2. **Qualifying Exigency** – The District may require an employee to provide it with a copy of the covered military member's active duty orders in support of a contingency operation, prior to

permitting FMLA leave for a qualifying exigency. The District may also require the employee to certify, with reference to appropriate facts, that the reason for taking FMLA leave is permissible as it is one of the eight enumerated basis for taking qualifying exigency leave, as stated above.

The process for any such certification shall adhere to the procedure outlined for serious health conditions, listed above.

3. Care for Covered Service members – The District may require certification completed by the covered service member's health care provider prior to permitting an employee to use FMLA for the care of a covered service member. In addition to certifying the authenticity of the covered service member's serious injury or illness, any certification must also identify the injury or illness as occurring in the line of duty while on active duty. The process for any such certification shall adhere to the procedure outlined for serious health conditions listed above.

4. Possibility of Waiver of Certification – The District, at its sole discretion, may waive the certification requirements set forth in this Regulation, as the circumstances of each FMLA-leave request may permit. Under no circumstances shall the District's exercise of its discretion be interpreted or construed as a permanent waiver of the certification requirements, but such requirements shall remain in full force and effect unless and until the District specifically modifies or eliminates this Regulation.

G. INTERMITTENT OR REDUCED LEAVE

1. Birth or Placement - Leave taken under this policy for the birth of a child, the placement of a child for adoption or foster care, or to care for such child may be taken on an intermittent or reduced work schedule only with the approval of the Board of Education.

2. Non-Instructional Employees – FMLA leave, other than birth or placement of a child, may be taken on an intermittent or reduced-schedule basis when medically necessary. If an employee

3. seeks leave on an intermittent or reduced-schedule basis, the employee must submit medical certification, as discussed above, and additional certification from a health care provider, that the intermittent or reduced-schedule leave is medically necessary.

The District may require an employee taking intermittent or reduced-schedule leave to transfer temporarily to an alternative available position for which the employee is qualified or may modify the employee's current position to better accommodate the employee's recurring periods of leave.

Whenever the need for the FMLA leave is reasonably foreseeable, the employee must make a reasonable effort to schedule the treatment so that it is not unduly disruptive to District operations.

4. Instructional Employees - Leave taken because of the employee or family member's serious health condition may be taken on an intermittent or reduced-schedule basis when medically necessary. If an employee seeks leave on an intermittent or reduced-schedule basis, the employee must submit medical certification, as discussed above, and additional certification from a health care provider that the intermittent or reduced-schedule leave is medically necessary.

If an instructional employee requests intermittent leave to care for a family member or the employee's own serious health condition that is foreseeable based on planned medical treatment, and the employee would be on leave for more than twenty (20) percent of the total number of working days over the period of the leave, the District may require the employee to:

1. Take leave for a period or periods of a particular duration, not greater than the duration of the planned treatment; or
2. Transfer temporarily to an available position for which the employee is qualified, which has equivalent pay and benefits and which better accommodates recurring periods of leave than does the employee's regular position.

The employee must make a reasonable effort to schedule the treatment so that it is not unduly disruptive to District operations.

H. INSURANCE PREMIUMS

During an employee's family or medical leave of absence, the District will continue to provide health, life, vision, and dental insurance coverage for employees who are eligible for insurance benefits. Voluntary (employee contributions) for (dependent) insurance for health/ life/vision/ dental (and employee disability and/or supplemental life insurance) must be paid in full each month and received by the twenty-fifth (25th) day of the month. Payments are to be submitted to the insurance office. Failure to make payments in a timely manner while on FMLA leave may result in the loss of any and all insurance coverage provided by the District to its employees. Employees should contact the District administrator responsible for coordinating insurance benefits regarding specific arrangements for making the required payments.

I. JOB RESTORATION

Upon return from FMLA-qualifying leave in accordance with this Regulation, the employee will be returned to the same or an equivalent position with no loss in benefits that accrued prior to the leave of absence. An employee who does not return to work at the end of an authorized leave may be subject to termination. If an employee fails to return to work after the termination of the leave period, the District may recover health insurance premiums paid under the group plan during the leave period, except in certain circumstances (e.g., continuing serious health condition of employee or family member needing care, or other circumstances beyond control of employee). The District may recover any other insurance premiums (e.g., premiums for supplemental life insurance or for dependent coverage), submitted on behalf of the employee, for which the District has not been reimbursed, either upon the employee's return to work or the employee's failure to return after unpaid family or medical leave has ended.

J. NOTIFICATION

1. District Notification Procedure – The District shall provide its employees with notice of their rights and responsibilities under the FMLA through use of the following Notices:
 - a. **General Notice** – A poster summarizing the FMLA entitlements shall be placed in an area accessible for employees and shall also be provided to each employee in the employee handbook.

b. **Eligibility Notice** – This Notice shall state whether the employee qualifies to take FMLA leave.

c. **Rights and Responsibilities Notice** – This Notice, issued in conjunction with the Eligibility Notice, will specify if a certification will be required from the employee, identify if paid leave will run together with the FMLA leave, address the procedure for making health insurance payments, the consequences of failing to make timely payments, and the employee's liability for repayment of health insurance premiums if the employee fails to return to work at the expiration of their FMLA leave. Finally, this Notice will

explain the employee's right to return to the same or an equivalent job at the expiration of their FMLA leave. Both the Eligibility and Rights and Responsibilities Notices will be provided to all employees within five business days of when the District becomes aware of a potential FMLA situation.

Designation Notice – Within five business days of the District's receipt of sufficient information from the employee to make a determination, the District shall provide the d. employee with the Designation Notice, which shall inform the employee if the leave shall be designated as FMLA leave. This Notice will designate the amount of leave counted against

the employee's entitlement, specify if the FMLA leave will run concurrently with any accrued paid leave, and notify the employee if a fitness-for-duty exam will be required prior to returning to work.

2. **Employee Notification Requirements** – Absent unusual circumstances, all employees seeking FMLA leave must follow the District's customary call-in procedure for reporting absences. An employee who can reasonably foresee the need to take FMLA leave is required to notify the District of the date of commencement and the expected duration of the leave at least thirty days in advance of the leave, or if the need for the leave is not foreseeable, as soon as practicable. When the need for leave is foreseeable, an employee's failure to provide thirty days notice prior to taking leave may result in denial or delay of leave. An employee requesting leave under this policy should submit a completed application for leave form (forms available in the Superintendent's office) to the Superintendent/designee. An employee's failure to follow the District's call-in procedure is grounds for the delay or denial of the employee's FMLA leave request.

K. ADDITIONAL FMLA INFORMATION

The foregoing regulation represents compliance with the provisions of the Family and Medical Leave Act of 1993 and its revised regulations. Any employee desiring additional information or explanation of the rules and regulations of the Act, should review the District's General Notice Poster or arrange a conference with the Superintendent/designee.
