Equipment or Facilities

- Facilities improvements on the short-term plan:
 1. Two bids were received on the strength/fitness facility. (Action Item later).
 2. Football press box improvements - Planning to pursue a quote for renovation of the football press box, to include new flooring, counters, drywall, heating/AC, separation walls (noise control), and a new window on the front that improves lines of sight.
 3. Upgrade to the elementary gym to install electric controllers for raising and lowering the rims, install new backboards, and move the existing backboards to the side rims to replace the oldest backboards. DANNCO has submitted a quote to complete this project in the summer for approximately \$10,000.
