**Budget Message**  
**Fiscal Year 2023-2024**  
**Knox County R-I School District**

**Introduction**

The 2023-2024 budget includes an outline of both projected revenues and projected expenditures for this school year, as well as a comparison to the prior 2 years. Every effort was made by administration and staff to be as precise as possible. There are no guarantees from any revenue source, or that expenditures won't increase at a higher rate than expected. All projections are based on the information present at the time of planning.

**2022-2023 Budget Review**

The 2022-2023 budget received \$10,385,025.58 in total revenues. Our expenditures ended up at \$10,512,863.09. The difference between the revenues and expenditures ended with a negative balance of \$127,837.51. This included several projects being done with some of our fund four balances, such as the brick repair, plaster repair, track resurface, and project management and architecture fees. This review also includes the added expense of adding a personal student nurse, new curriculum materials for elementary and middle school, and a paraprofessional after the school year started.

**2023-2024 Budget Highlights**

The 2023-2024 budget has a projected balance of \$749,133.03. This includes adding \$2,000 to the base for teachers, and an average 5% raise for all other employees not on the teacher salary schedule. As far as revenues, I am being conservative and feel that they will come in better than budgeted. The revenues do include part of our ESSER III funding as well as the bond proceeds which inflate our revenues by \$2,250,000. As far as the expenditures, I have used the best figures and tried to remain as conservative as possible. This also includes \$2,250,000 for building projects from the bond proceeds. This budget will be complex as we don't know for sure which construction projects will be complete this year.
